

# Hazardous Drugs Spill Kit

In environments where meticulous precautions are paramount—like compounding pharmacies and healthcare facilities handling cytotoxic and other hazardous drugs—the Safetec Hazardous Drugs Spill Kit serves as the frontline defense against unforeseen spills and exposures.

Any facility that handles HDs must have USP <800> compliant spill kits on-site. This requirement is part of USP General Chapter 800 and is an effort to protect workers and patients in the event of accidental spills of HDs.

▼ To meet USP <800> compliance, our kit utilizes Green-Z® solidifier that can absorb up to 750 ml/cc's for swift cleanup and disposal while minimizing exposure risks. The nitrile gloves are tested for use with cytotoxic drugs using ASTM D6978. They are powder-free, latex-free, DEHP-free, and silicone-free. The gown is compatible with OSHA recommendations and ASHP and ONS guidelines for wearing a gown while preparing or administering hazardous drugs. It is disposable, lint-free, made of low permeability fabric, constructed with a solid front and back closure, and is long-sleeved with tight-fitting cuffs.

Order No.	Container	Container Dimensions	Case Qty.	Case Wt.
49725	Plastic Bag	2" x 8" x 14"	12/case	11 lbs.

## What's Included:

- 21 g Green-Z® Fluid Solidifier\*\*\*
- Caution Sign
- Full-Face Safety Shield
- Identification Tag
- Instruction Card
- Scoop/Scraper
- Shoe Covers, Non-Slip
- Twist Tie
- USP <800> Compliant Gown▼
- 2 pairs of USP <800> Compliant Nitrile Gloves▼
- 2 Wiper Pads (11" x 11")
- Yellow Biohazard Waste Bag (20" x 13" x 39")\*
